

## Live Casters

Is the turnkey solution to broadcast live video and show anyone in the world what's happening right now. With over 20 years of experience we can customize your broadcast so you can have the best live experience possible.

## Email your Live Broadcast

Gather and engage with a live audience. Live Casters is the most effective way to broadcast your live event and show anyone in the world what's happening right now. Invite your private audience via a simple email link and password to view your event, or we can make it public so anybody can access in over 250 countries and they chat in real-time with you and other viewers.

## Engage to a live audience

Live video can help you motivate a crowd to tell their friends what's happening, follow you on Twitter, buy a product, donate to a cause or get up out of their chairs and take action.

## Re live the Broadcast

If anyone in your audience missed the event a recorded clip of the event is available for replay for the next 6 days.

IDFX Presents:

## Live Casters

Show the world what's happening right now

# Lights Camera **LIVE**

## **Professional Personnel**

Our Experience Broadcast teams know live broadcast so we can give you the best service and a successful web cast.

## **How can we help**

Live cast is useful for a broad range of users and business needs, including broadcasting of live press or sports events, entertainment, university lectures, live business presentations, marketing or training and more. Live Casters makes it easy for anyone to share live experiences and build a global community.

## **We Can Brand your Live Channel**

We understand the needs of today's events and can help you create additional revenue with your transmission. If you have sponsors we can roll commercials before event starts and ad sponsor logos to your channel.
